

CHINENYE LIZZY NWORIE

Frontend Developer | Customer Experience Professional

[Email](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Frontend developer building responsive, user-friendly web applications with HTML, CSS, JavaScript, and React—backed by 5+ years of customer success experience behind every decision. Brings a rare combination: technical ability paired with real-world experience understanding what users actually need, proven by a 95%+ first-contact resolution rate and 90%+ QA scores across thousands of customer interactions.

TECHNICAL SKILLS

- Languages & Core: HTML5, CSS3, JavaScript (ES6+)
- Frameworks & Libraries: React, useState/useEffect, component architecture
- Tools: Git, GitHub, VS Code, Chrome DevTools, npm/Vite
- Integration: REST APIs, fetch/async-await, JSON data handling
- Practices: Responsive design, mobile-first layouts, form validation, localStorage

PROJECTS

Personal Developer Portfolio | Self-directed 2026

- Built a fully responsive portfolio site with HTML, CSS, and JavaScript featuring dark/light mode, smooth-scroll navigation, and a mobile hamburger menu
- Integrated live public APIs (quotes, Bible verses) using async/await and dynamic DOM updates
- Implemented form validation and localStorage-based draft persistence for the contact form
- Version-controlled with Git and deployed via GitHub

React Component Library & Interactive UI | Bootcamp Final Project 2026

- Architected reusable React components (Card, Counter, SkillsList, PokemonCard, ContactForm) using props and state
- Consumed a live REST API (PokeAPI) with useEffect to fetch and display dynamic data on demand
- Built a controlled multi-field form using a single state object and shared change handler

PROFESSIONAL EXPERIENCE

Customer Service & Inside Sales Representative | TalentPop 2023 - 2024

- Maintained a 95%+ first-contact resolution rate across 50-80+ daily customer interactions
- Achieved consistent 90-92% QA ratings through accurate, empathetic, and efficient support
- Documented every interaction with 100% CRM compliance using Gorgias and Zendesk

Customer Service Representative | AG Marketing 2022 - 2023

- Managed high-volume customer inquiries across chat, email, and phone channels
- Used VTiger and POnline to track, escalate, and resolve customer issues
- Trained and mentored new hires on support workflows and CRM best practices

Customer Service Representative / *Consumer Opportunity* 2021 - Present

- Delivered consistent, high-quality support across a range of customer touchpoints
- Built foundational skills in troubleshooting, active listening, and clear documentation

EDUCATION & CERTIFICATIONS

- National Open University of Nigeria (NOUN) - Final-Year Student
- In-Demand IT Skills Training Certificate - Digital Witch Support Community (Certificate ID: DWSC21792, April 2026)
